<hr/>		

This matter was opened to the State Board of Dentistry ("Board") upon receipt of a letter from Steven Hutt, D.D.S. requesting modification of the terms and conditions of a Consent Order entered by the Board on April 9, 1991 and amended by Order of May 28, 1992. The application for modification was supported by a report from Dr. Frederick Rotgers, Staff Clinician of the NJDA Chemical Dependency Program.

The Board reviewed the entire record before it and determined that there was good cause to modify the previous Orders as follows:

IT IS, THEREFORE, ON THIS 19th DAY OF APRIL, 1993,

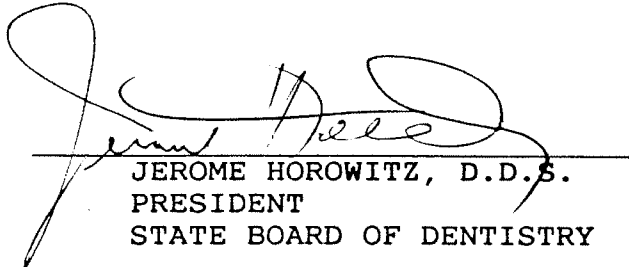

ORDERED THAT:

1. The terms and conditions of the Consent Order filed with the Board on April 9, 1991 and the Amended Order filed with the Board on May 28, 1992 shall be modified as follows:

(a) All requirements concerning urine monitoring shall be terminated effective immediately.

(b) The request for reinstatement of full prescription privileges is denied, but Dr. Hutt may make application for further modification of this restriction after a reasonable period of time if he continues in psychotherapy and self-help meeting attendance.

2. All other terms and conditions of the previous Orders entered on April 9, 1991 and May 28, 1992, that are not inconsistent with the within Order shall continue in full force and effect.
